

REVOLUTION IN CRYO-AESTHETICS

World's Most Versatile Cryo-Aesthetics Device

The most exciting part of using KaasenLife is seeing the potential for changing people's lives. The positive results we are seeing every time are truly inspiring, whether we're treating psoriasis, giving cryo-facials or cryo-sculpting.

Laura Huggett FDSC, Aesthetic Practitioner

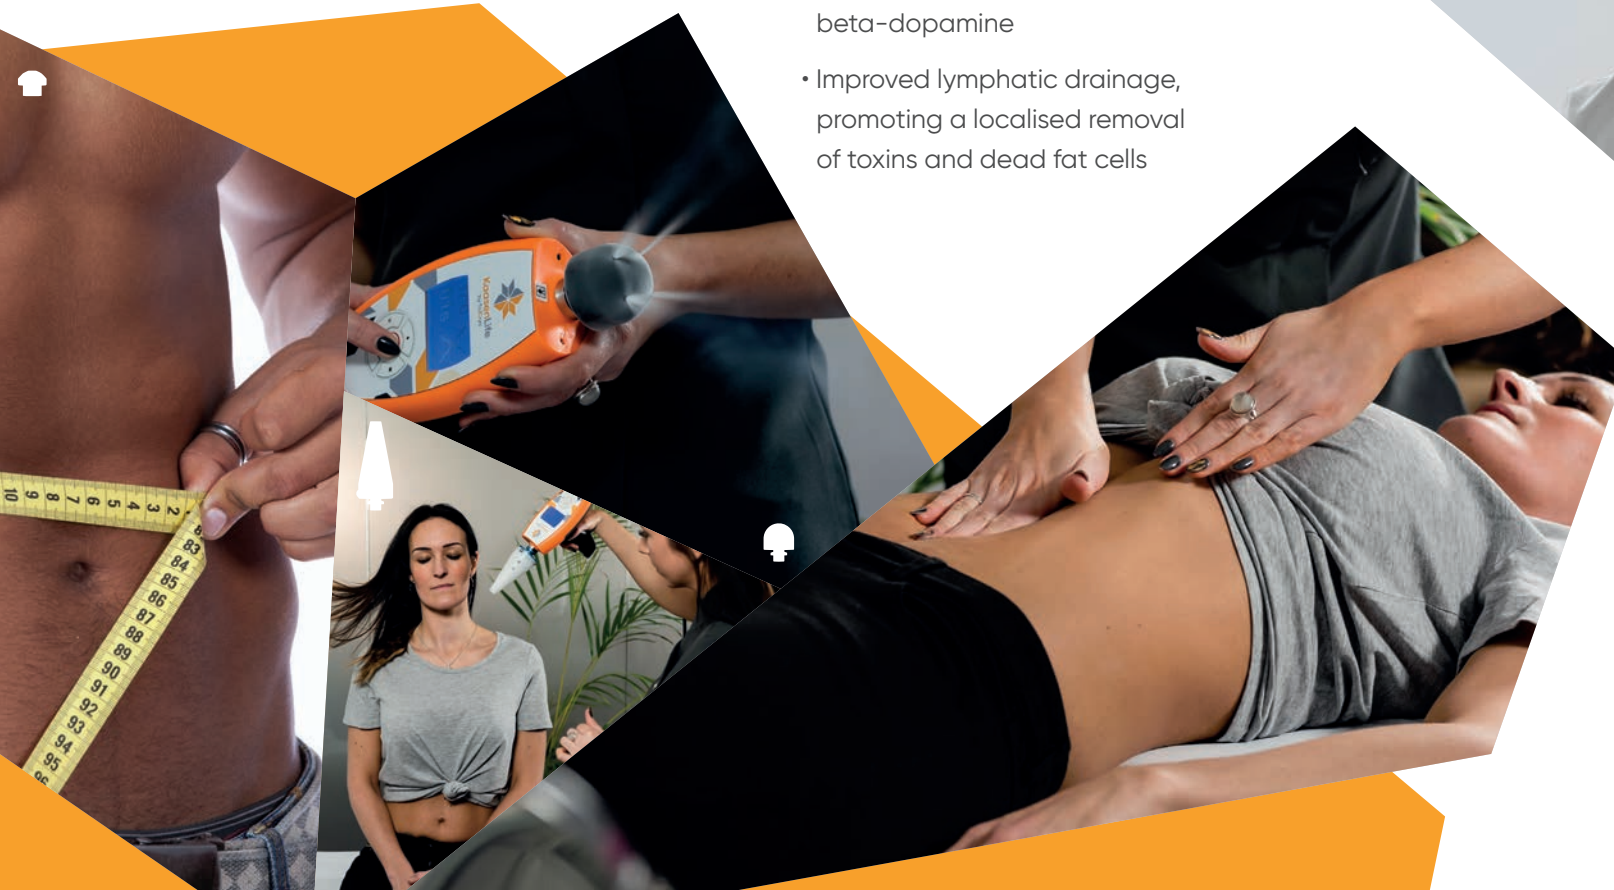

The world's most innovative and versatile cryo-aesthetics device. This unique aesthetics equipment has been developed and built by experts in the UK and allows you to offer a large variety of treatments with just a single device.

HOW IT WORKS

KaasenLife cools a targeted area of the body to 4°C using carbon dioxide to stimulate a natural body response. This is called Thermal Shock. The body's response to rapid cooling causes:

- An immediate increase in the flow of oxygen and nutrient-rich blood to the area
- An increase in hormones such norepinephrine and neurotransmitters such as beta-dopamine
- Improved lymphatic drainage, promoting a localised removal of toxins and dead fat cells

CLINIC REVENUES
CAN BE INCREASED BY
300-400% WITHOUT THE
NEED FOR EXPANSION

BENEFITS TO THE CLINIC

- Safe to use - multiple built-in features ensure safety and comfort
- Wide variety of treatments available from a single device
- Affordable and available with flexible finance options
- No consumables other than gas - widely available from any supplier
- Low cost of gas from as little as 35p per treatment
- Highly portable and simple to use - pre-programmed protocols
- Complete treatments in 5 minutes: significantly increase revenues
- Full certificated training and support included

FEATURES

KaasenLife has thermal shock indication LED's, dual skin temperature sensors, advanced proximity sensor, automatic shut off mechanism, rechargeable battery and a digital screen to ensure safe, efficient and comfortable treatments. No need to purchase consumables – just liquid CO₂, which is widely available from any supplier.

This efficient and effective device allows your clients to enjoy the convenience of a 15-minute appointment, with the benefits of a practitioner's multi-session treatments and immediate results.

WHAT'S INCLUDED:

- Kaasen device, nozzles and carry case
- Comprehensive certificated training
- Full UK-based support and warranty

Cryotherapy has transformed my pain and injury clinic into an aesthetic practice. I am able to offer fat freeze treatments and 'Frotox' to new and existing clients. As a top-level sports therapist, I believe TruCryo has taken me and my practice to the next level, setting me apart from local competitors.

Patricia Hegarty, Level 5 Sports Therapist
